Cataract Questionnaire

The term “cataract” refers to a cloudy lens within the eye. When a cataract is removed, an artificial lens is placed inside the eye to take the place of the natural lens that has become the cataract. This questionnaire will assist us in providing the treatment best suited to your visual needs if it is determined that surgery is appropriate for you. It is important that you understand that many patients still need to wear glasses for some activities after surgery. Please fill this form out completely and give it to the doctor. If you have questions, please let us know and we will assist you with this form.

1. Are you interested in seeing well at a distance without glasses after surgery?

Prefer no distance glasses. Not important to me, I would not mind wearing distance glasses

2. Are you interested in seeing well up close without glasses after surgery?

Prefer no reading glasses. Not important to me, I would not mind wearing reading glasses
